RxSafe RapidPakRx

RapidPakRx Overview

eyecon® Rx^{SAFE}
An ITW Company

- ❑ **All-in-one design** for One Pass Workflow, no separate vision inspection machine
- ❑ **3-Step Vision Verification:** Eyecon (Filling), Cartridge (Dispensing), Post-Fill
- ❑ **Adjustable pouch sizes** for single doses up to 20 pills
- ❑ Room for up to **7 different meds** to be dispensed per pouch
- ❑ Crisp, easy to read printing on direct thermal heat transfer paper, no ink, no smudging
- ❑ Small footprint at just —**33"W x 18"D x 60"H** (20 cartridges) or 84"H (30 or 40 cartridges)
- ❑ **Universal Cartridges**, no NDC Specific Calibration or Configuration
 - RFID Chain of Custody Traceability
 - Dispenses all oral solid medications including Gel Caps and half tablets
 - **Advanced Imaging:** Verifying Size, Shape and Color of Pill **before** dispensing
 - No more exception trays, no more remote tray filling stations
- ❑ Available in **20, 30** or **40** Cartridge Models based on monthly patient throughput:
 - 20 Cartridges < 200 patients
 - 30 Cartridges < 500 patients
 - 40 Cartridges > 500 patients

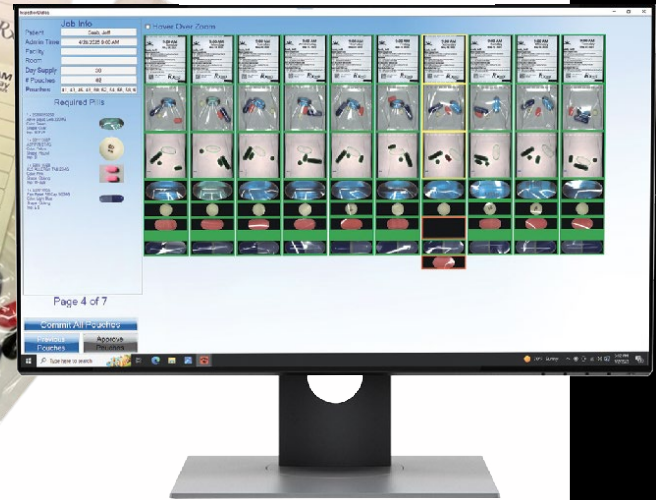

Built In Inspection with true One Pass Workflow

- ☐ Faster Pharmacist Approval without pouch Handling
- ☐ Positive displacement pouch filling
- ☐ Automatic, dynamic, variable pouch sizing for fewest pouches per med pass
- ☐ No more expensive consumables
- ☐ Far less technician & pharmacist labor

RapidPakRx™

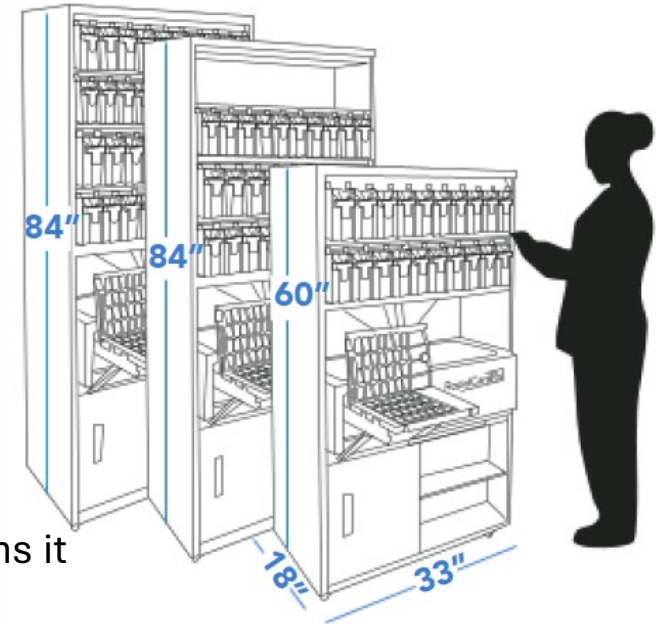

RapidCard and RapidPak Workflow

❑ Available in 20, 30 or 40 Cartridge Models based on monthly patient throughput not NDC storage:

- 20 Cartridges < 200 patients
- 30 Cartridges < 500 patients
- 40 Cartridges > 500 patients

❑ No Exceptions Tray workflow – Each Patient Job is loaded serially and jobs can be loaded while machine is filling cards

❑ Configurable “Fixed” Cartridges can be used for high use Drugs – On RC/RP30 or RC/RP40 cartridge configurations it is common to have 10-20 Fixed Cartridges with high moving drugs.
